

Align CDI resources with strategic goals and experience revenue lift and CDI impact optimization.

Shifts in payor mix, changes in payor contracts, and adoption of new reimbursement models require a strategic CDI focus that promotes sustainability in the current healthcare market allowing for the investment in Value-Based Care.

As hospitals rebound and focus on financial stability, organization success requires a new strategic approach to CDI resource alignment and high value initiatives.

The most successful organizations will be those that:

Make data-driven decisions to ensure the financial health of the organization

Prioritize proactive—not reactive—CDI, documentation, and coding compliance

Reimagine the role of CDI

As CDI departments are asked to do “more with less,” the need to ensure all resources and priorities are aligned with organizational goals has never been more important. Through analysis of your current program, we identify areas of opportunity to optimize your CDI resources and processes achieving economies of scale and sustainability that align with your strategic goals.

Benefits:

- ✓ Focus on immediate revenue recovery related to DRG accuracy and opportunities including high ROI DRGs (based on historical Enjoin data) as well as payor CMI, CC/MCC capture, denial rates, payment rates, current CDI coverage, etc.
- ✓ Strategic alignment of current and future CDI resources to allow for optimal ROI and sustainability of CDI impact
- ✓ Optimize CDI workflows by assessing utilization of CDI software compared to best practice procedures
- ✓ Peer-to-peer education based on current documentation/coding accuracy opportunities
- ✓ CDS/Coder education for effective knowledge transfer
- ✓ Process performed by industry experts (Coding/CDI/Physician collaboration)

The Enjoin Advantage

Our holistic approach ensures CDI initiatives are aligned with your goals of CMI and reimbursement accuracy. When coupled with pre-bill reviews, revenue lift is accelerated.

- Pre-bill reviews focus on high-yield DRGs and mitigate risk of denials
- Strategic alignment of CDI resources with payor prioritization for ROI
- Optimization of CDI workflows and technology
- Peer-to-Peer Physician Education

CDI Align™

- ✓ **\$700M**
in revenue recovery
- ✓ **\$280M**
