

# DRG Assurance Program

Maintain financial accuracy and sustainable revenue through a proactive approach for DRG optimization.

Pre-bill reviews are a key revenue cycle strategy to proactive coding and documentation accuracy and compliance.

Bridge the gap between the patient story and the claims database with 35 years of direct physician leadership.

## Pre-bill Reviews are in our DNA

We carry the code to clinical and financial insight

### ASSESS

Pinpoint opportunities through data analysis, chart reviews, and alignment of CDI to immediately recognize the greatest impact.

Pre-bill reviews require a delicate balance of clinical validation and coding. Our clinical coding analysts work directly with our board-certified physicians who are also credentialed documentation and coding specialists. With a comprehensive education focus, we contribute to staff development and promote employee retention.

### BUILD

Design a customized program to drive education and formalize a process to support evidence-based clinical knowledge, evoke engagement, and promote behavior change.

### ★ Capture Revenue and Invest in your Team ★

- Invest in your workforce through Education
- Facilitate knowledge sharing
- Harness the growth of your staff with a collaborative team approach
- Uncover missed documentation, coding, and query opportunities

### SUSTAIN

Facilitate knowledge transfer for performance measurement strategies to ensure program stability and staff maturation.

### Key Components

- MS-DRG and/or APR-DRG pre-bill reviews
- Optimization of principal diagnosis sequencing (often missed with technology tools)
- Cohort Identification to strengthen reimbursement and quality profiles
- QMAX™ optional query management support to final code submission
- Free denial defense on any chart reviewed

# DRG Assurance Program

## Why Enjoin?

- ✓ Physician-led team integrating evidence-based medicine with coding rules and guidelines
- ✓ Advanced clinical acumen and clinical coding expertise
- ✓ Customized focus list for high value and high impact
- ✓ Advanced interactive PBI reporting and dashboards for targeted education and performance metrics
- ✓ Educational resources to support knowledge transfer and CDI program advancement
- ✓ Complimentary denial support for any chart reviewed

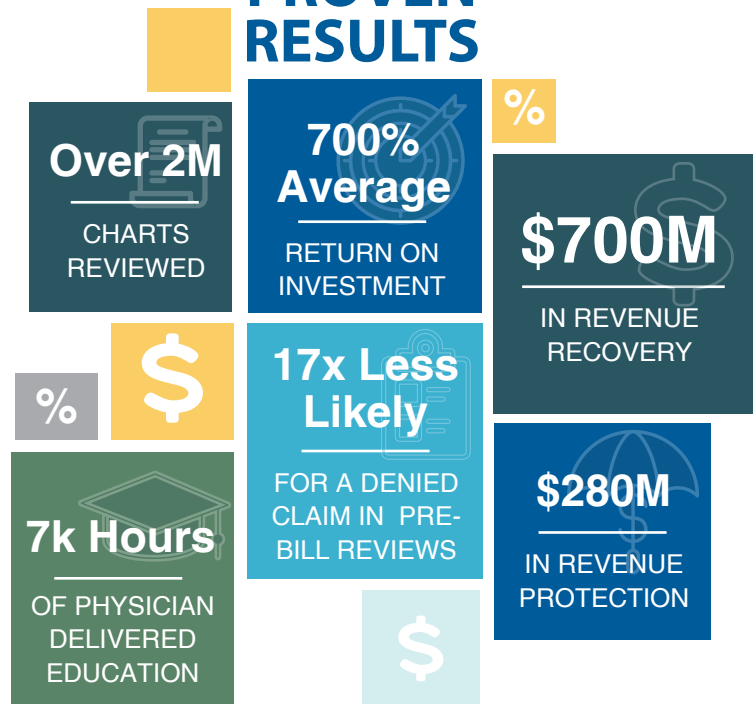

They are one of the best partnerships to have in the industry. They are committed to ensuring compliant documentation and coding are the end result! Their educational offerings are top notch and the detailed reviews on opportunities are spot on."

Erin M., UNC Health

Average Enjoin accepted CMI lift was 0.04, yielding greater than 2% accepted annual revenue lift on cases reviewed\*  
\*On average for the last 3 years

With Enjoin, clinical complexity becomes clear, improving financial performance, risk adjustment and quality outcomes.

## PROVEN RESULTS

Physician-led.  
Proactive.  
Deep-rooted in Education.

Take a deep dive into your current level of DRG accuracy to discover new revenue and education opportunities.
